(8)^{379 380 381 382} The decision specified in point a) of Section (1) and in Section (2) shall be made by majors. If training is provided separately in the different establishments (settlements) of the University, the decision shall be made by establishments and majors.

(8a)³⁸³ In case of teacher training the vacant Hungarian State scholarship supported places shall be handled as a whole, from the point of view of Hungarian State scholarship supported places as one major and can be granted in the framework of application for vacant scholarship supported places, transfer or changing major in any double-major teacher training.

(9)³⁸⁴ Credits accepted by credit transfer shall be considered as credits earned in case of the decision on re-assignment according to Section (1) b) when examining whether the average of eighteen credits per semester, that is thirty-six credits altogether have been reached. Considering this may happen in a way that the Registrar's Office examines which semester the course accepted by credit transfer belongs to according to the recommended curriculum of the student and only considers in the re-assignment procedure those courses accepted by credit transfer that - according to the recommended curriculum of the student - belong to the semesters affected by the decision on re-assignment.

(10)^{385 386} In the course of making a decision on re-assignment under point a) of Section (1) the credits accepted by credit transfer in the examined semesters shall be taken into consideration. The faculty Registrar's Office may make the decision to assess the subjects accepted by credit transfer related to the student's recommended curriculum, and take into account only those that are part of the semester of the recommended curriculum considered in the course of re-assignment.

(11)³⁸⁹ On their own request the student pursuing studies in state-funded training may continue their studies in fee-paying training, and the student pursuing studies in fully or partly Hungarian State scholarship supported training may continue their studies in self-financed training provided the request is submitted to the faculty Registrar's Office not more than 30 days prior to the beginning of the semester. The student pursuing studies in fully or partly Hungarian State scholarship supported training is obliged to make a declaration on his/her intent of withdrawing the declaration of accepting the conditions of the fully or the partly Hungarian State scholarship supported training in the request or in a separate document submitted with the request. The decision on re-assignment on the student's own request is made by the Registrar. The student re-assigned in this manner shall request his/her re-assignment to vacant state-funded or fully or partly Hungarian State scholarship supported places equivalent to the other fee-paying or self-financed students of the University.

(12) Students re-assigned to fee-paying training shall conclude a fee-payment agreement with the University under the provisions of Article 47/A hereof. Students re-assigned to self-financed training shall conclude a student training agreement with the University under the provisions of Article 47/A hereof (fee-payment agreement and student training agreement together hereinafter: fee-payment agreement). The starting amount of the tuition fee or self-financed fee of the re-assigned student shall be equal to the tuition fee or self-financed fee for the academic year following the re-assignment of a student who was admitted to fee-paying or self-financed training on the given major in the year in which the re-assigned student established student status. Article 43 (1)^{390 391 392 393} In case the student status of a student who has been admitted against the quota for state-funded training is terminated before the completion of studies, or if the student continues his/her studies in the form of fee-paying training for any reason, his/her place may be filled – upon request to this effect submitted until the deadline set by the faculty – by a student with outstanding academic performance who pursues studies in fee-paying training in the same major. Decisions under this provision can be made once per academic year or once per academic semester, that is to say, twice per academic year, during the procedure aiming to fill vacated places in state-funded training. The vacated places at fully or partly Hungarian State scholarship supported trainings which were not filled during the given re-assignment procedure may be filled during any subsequent procedure aiming to fill vacated places at fully or partly Hungarian State scholarship supported trainings. The re-assigned student can continue his/her studies in state-funded training – with consideration to the regulations pertaining to the state-funded period – up to the number of semesters remaining from the training period of the student whose place he/she is re-assigned to.

(2)³⁹⁴³⁹⁵ A vacant place within the state-funded quota may be filled by a student

- a) who has earned at least 50 percent of the amount of credits prescribed in the recommended curriculum over the past two semesters he/she registered in and who is ranked at the top of the list of students made on the basis of the combined corrected credit index, and
- b) whose combined corrected credit index is higher than the combined credit index of a student ranked in the bottom fifth of the combined corrected credit index list of state-funded students.
