### My experience in Pécs

I would love to return to Pécs. Studying there was one of the most incredible experiences of my life. I had the privilege of learning at the Faculty of Music and Visual Arts, a vibrant and inspiring environment filled with talented people. Every class I attended was engaging and eye-opening, introducing me to a completely different learning approach. While it was initially challenging, this experience helped me develop invaluable skills, such as self-discipline, time management, and independent work. The professors were exceptionally well-prepared, and I am deeply grateful for everything they taught me.

Another aspect of my time in Pécs that I cherish is my stay at the Szántó dormitories. Living there allowed me to meet amazing people from all over the world. As international students, we were all open to new connections and experiences, fostering a strong and welcoming community. ESN activities played a crucial role in this, offering countless opportunities to bond with others. My greatest advice to any new student would be to participate in these events wholeheartedly, every activity is a chance to create lifelong friendships and unforgettable memories.

Beyond academics and social life, Pécs itself holds a special place in my heart. Its safe and peaceful atmosphere made it the perfect backdrop for some of my fondest memories. I will always miss those evenings spent with friends, strolling through the charming city center, grabbing delicious ice cream, and simply enjoying each other's company. Pécs isn't just a place to study, it's a place to grow, connect, and create moments that stay with you forever.
